INVITATION TO PARTICIPATE

FROM CHAIRMAN OF
19th ASEAN CONGRESS OF ANESTHESIOLOGISTS

Dear Colleagues,

It is a great honor for the Indonesian Society of Anesthesiology and Intensive Therapy to become the host of 19th ASEAN Congress of Anesthesiologist, held on 27-29th August 2015. **“Facing AFTA 2015 challenges: Unity Among ASEAN Anesthesiologists”** is our main theme which will uphold the highest standard of competency and personal's capability as to enable us to reach the same level of qualification among all ASEAN anesthesiologists and to compete in the coming AFTA 2015.

Indonesia is a country of cultures. Yogyakarta is one of the region which has the strong enchanting culture. It was once a capital city of Indonesia. It is ruled by a Sultan. Many wonderful historical cultural heritages can be found in Yogyakarta. “Tugu Yogyakarta”, a philosophical dignity icon of Yogyakarta. The beautiful elegant Prambanan temple, built in 14th century, where the traditional Ramayana dance is performed every fullmoon. The magnificent Borobudur temple, a Buddhist heritage constructed in 9th century, is a proof of Indonesia's high civilization culture in the early times.

Surely you will be amazed staying in Yogyakarta.

“Di Yogya kita ketemu”
“See You in Yogya”

We warmly invite you to come and enjoy Yogya.

We hope you would participate in the 19th ASEAN Congress of Anesthesiologists 2015.

Chairman of 19th ACA 2015

Sri Rahardjo

EXECUTIVE SUMMARY & COMMITTEE

EXECUTIVE SUMMARY

AFTA 2015 is approaching, and global competition can not be avoided, including in the area of health services. Health providers will meet various people from various countries. They will be responsible in giving the highest level of service based on the most up-to-date knowledge while also understanding the basic culture of their client, then finally they will give the best service. So many various cases are faced by the anesthesiologists nowadays, including medical or non-medical issues, yet not all Anesthesiologists have the same experiences. There is a basic need for ASEAN Anesthesiologists to exchange and share their experiences, thus they can grow-up together, and hopefully able to reach equality in competency and knowledge.
