SIMULATION WORKSHOP

11th November 2013

Venue : Simulation Lab
Day Care Center , Level 5 ,
Hospital Angkatan Tentera Tuanku Mizan

Time : 8.00 am – 5.00 pm

Limited to 20 participants

The objective of this course is to highlight key issues required to optimize learning within a synthetic environment. In this course, participants will be taught on how to manage anaesthetic crisis in the perioperative setting. There will be hands-on training and practice in managing various scenarios using simulated patients. The sessions will be conducted by a team of experts in their respective fields and who have had extensive experience running the simulation programme.
